Keeping our staff and customers safe is our top priority. As a part of our response to COVID-19, Canex Building Supplies Ltd, have developed a safety plan for each our worksites. We have focused on reducing contact and creating social distancing measures between our Canex family and customers to keep everyone safe.

There are many measures in place to help prevent the transmission of COVID-19. These include:

Store capacity limits

We monitor and have set limits of the number of customers to help with social distancing. Certain areas in our stores have occupancy limits.

Personal Protection Equipment

Face masks are mandatory for our staff and customers.

Work Stations and Checkout

We have installed physical barriers throughout our stores to help with social distancing. We sanitize high touch areas between customers. Example: customer countertops, door handles, and debit machines.

Inside our Stores

- Providing alcohol-based hand sanitizer at entrances and exits.
- Active Employee Screening and Temperature checks prior to the start of their workday.
- Posted signage throughout reminding staff and customers about proper handwashing, sneezing and coughing etiquette, and posted symptoms of COVID-19.
- Scheduled extra sanitation on high touch surfaces such as samples, countertops, carts, computer keyboards, and debit machines.

Canex Building Supplies developed safety plans and checklist to ensure all of our locations have implemented the recommended Fraser Health precautionary measures. We continue to monitor and evaluate these safety measures on an on-going basis on the available information from our Public Health Agencies and WorkSafeBC.
